IT Pros Management Inc. Announces Partnership with Leading MSP Business Development Group, The 20

After an extensive application process, IT Pros Management Inc. has joined The 20

BURBANK, CALIFORNIA, April 1st, 2020, IT Pros Management Inc. a leading provider of information technology support, solutions and services for businesses and non-profits in the greater Southern California today announced a new partnership with the leading MSP Business Development Group, The 20.

IT Pros Management Inc. has become an official member of The 20, empowering the company to deliver a broader set of solutions for its customers looking to streamline their user experience. This alliance will empower IT Pros Management Inc. to provide unparalleled IT support.

"It gives me great pleasure to announce our new partnership with The 20," said Silvia Sevilla, Vice President of Marketing for IT Pros Management Inc. "The 20 is the most renowned MSP business development group in the industry. The ability for our clients to get the best solutions available, and the world-class service and support that The 20 delivers, is incredible. IT Pros Management Inc. is proud of this new relationship and we look forward to continuing to help our clients thrive and improve our operations with The 20's proven model."

The 20's singular platform and infrastructure allows all MSPs to maintain their individuality while being able to effectively support clients throughout North America. MSPs with a small on-site team can now provide services that were once offered only by larger MSPs without the same risks and investments.

"We are pleased to welcome IT Pros Management Inc. to The 20," said Tim Conkle, CEO of The 20. "At The 20, we have perfected a single service delivery model with proven processes to help IT providers grow. We are excited to take IT Pros Management Inc. to the next level."

About IT Pros Management Inc.

IT Pros Management Inc. (www.itprosmanagement.com)

Since 2011, IT Pros Management Inc. was founded under the belief that our technical expertise, knowledge of business and our friendly service offering is enough to attract quality clients and keep our existing clients happy and productive.

IT Pros Management's founding principles include a friendly customer service experience, great value for our clients, extensive IT experience for our clients to leverage and strong business partnerships with our clients.

We use our extensive experience to help our clients manage and maintain their IT environment in today's ever-changing and risky IT landscape as well as providing business consultations to our clients to improve operations and productivity through IT solutions. We not only focus on delivering cutting edge technology but also on delivering a friendly customer service experience to our clients and their staff.

About The 20

The 20 (www.the20.com) is an exclusive business development group for Managed Service Providers (MSP) aimed at dominating and revolutionizing the IT industry with its standardized all-in-one approach. The 20's robust RMM, PSA, and documentation platform ensure superior service for its MSPs' clients utilizing their completely US-based Help Desk and Network Operations Center. Extending beyond tools and processes, The 20 touts a proven sales model, a community of industry leaders, and ultimate scalability.
